U.P. STATE ENERGY CONSERVATION AWARD - 2018

Award for Excellence in Energy Conservation and Management

OBJECTIVE

To give state level recognition to the Industrial units, building establishments, Institutes, Hotels, Hospitals, Banks and Architects, who have made systematic and serious attempts for efficient utilization and conservation of energy during the years 2017-18 in comparison to 2016-17.

THE AWARDS

First, Second and Third prizes are proposed to be given in these sectors in the form of a Shield with appropriate citation on such awards as may be decided by the Award committee. The performance of the unit would be judged through a questionnaire (format enclosed) which would be evaluated by an Award Committee.

The Award Committee would take a final decision on the number of awards depending on the number and quality of entries received in each category. Hence, there may be possibility that first, second or third award may be cancelled i.e. only one or two prizes may be given, if number of quality entries are not received.
